Address: 57 Russell Hill Road, Markham, Ontario, Canada L6C 2M5

EDUCATION

- **University of Waterloo** Ontario, Canada
Honours Bachelor of Mathematics - Fourth Year *Sep. 2020 – Aug. 2024*
 - Cumulative GPA: 89.83/100
 - Double Major: Computational Mathematics and Combinatorics & Optimization
 - Minor: Computer Science

EXPERIENCE

- **Bolee Machine Tool Ltd.** Hong Kong
Computer Technician Intern *Apr 2023 - May 2023*
 - Efficiently managed and maintained the company's Wordpress website by developing a Python program that uses Selenium to automate the process of creating, updating, and deleting products from a csv file, reducing 2 months of manual labor to just 4 hours.
 - Managed the company's server system, including configuring the VPN server for remote access and upgrading the storage of the NAS server.
- **University of Waterloo** Waterloo, Ontario, Canada
Full Stack Developer Intern (Part-time) *Jan 2023 - Apr 2023*
 - Contributed in the development of a Next.js and TypeScript frontend and a Golang REST API backend for a cognitive linguistic research group's website.
 - Created responsive and intuitive interfaces using NextJS components and Material UI.
 - Utilized GitLab pipeline for testing and linting to ensure optimal website performance and maintain high code quality.
 - Streamlined development processes by transitioning the front-end framework from Ant Design to Material-UI.
 - Created a backend endpoint that dissociates an instance with a figure.

PROJECTS

- **Biquadris - C++**
 - Developed a customizable Tetris game variant with adjustable board dimensions and win conditions.
 - Employed the Model-View-Controller (MVC) design pattern for a robust and maintainable architecture.
 - Utilized the Factory Method design pattern to generate unique block configurations for varying levels.
 - Leveraged the X Window System to craft an engaging and user-friendly GUI.
- **Recipe App - TypeScript, NextJS, Node.js, MongoDB, Express**
 - Developed a recipe sharing web application using Next.js, Node.js, Express, and MongoDB, with user authentication and authorization features and the ability for users to save or unsave recipes.
 - Designed and implemented the user interface using Material UI.
 - Used the useContext hook to manage global states.
 - Utilized TypeScript for improved code reliability and type safety.
- **Personal Website - TypeScript, NextJS, TailwindCSS**
 - Developed a personal website using Next.js and TypeScript for enhanced performance and reliability.
 - Designed an intuitive and visually appealing user interface using TailwindCSS.
 - Leveraged the benefits of TypeScript for improved code reliability and type safety.
- **RunSuite - Bash Script**
 - Created a Bash script that checks if a given program matches the output of the given test suite.

SKILLS

- **Programming Languages:** Python, JavaScript, TypeScript, Go, C++, C, Bash, HTML, CSS, SQL, Ruby, R, MIPS Assembly, Racket, LaTeX, MATLAB
- **Technologies/Frameworks:** React, NextJS, Socket.io, Node.js, MongoDB, Netlify, Vercel, Heroku, Redux Toolkit, Styled Components, MaterialUI, TailwindCSS, Firebase, Selenium, BeautifulSoup4, Git, npm, Webpack, Wordpress, Linux/Unix, Adobe Photoshop, MS Office Suite
